Corporate Adventure Associates has an experience base spanning 13 years and is very well known and respected in the marketplace. The teambuilding has been categorized into two areas

**Fun Teambuilding & Team Coaching.**

**Amazing Race:** Equipped with map, compass and GPS's, teams of between 4 & 8 delegates find their way to various tasks. Together with halt cards, time bonus's, penalties and fast track options it's any team's strategy based game. Either on foot or by vehicle this activity is tailored to suit all fitness

**Mission Impossible:** By breaking the paradigm of raft building teams have to build boats and float a bakkie out of equipment provided. With no drums or flotation devices provided this activity has proven to be a popular lateral thinking challenge...an ideal all year round activity.

**Treasure Hunt:** Equipped with map, compass and GPS teams of between 4 & 8 delegates find their way to various waypoints to find a punch to clip the team card. Once completed the team deciphers the results on the card, which will be a cryptic clue as to where they might find the treasure map giving the final resting place of the treasure.

**Coaching teams to increased productivity:** tailor made to suit the specific needs of the team. By making use of our unique web based needs analysis we design an appropriate team coaching program that is not only fun but provides for learning and an action plan into the future

**The weather** is unpredictable so when putting a program together we always have a rain plan or a 'stay out of the cold' plan

**Activity Circuit:** The group is split into teams of 6 to 10 team members. Each team is presented with a program card with their timings indicated as to where & when to be. The teams then rotate from one activity to the next in such a way that each team participates against different teams at different activities. Teams are measured through a fun system of marble earnings.

**Floating Restaurant or Conference venue:** By making use of lightweight equipment the team must construct a floating restaurant or conference room and equip the said facility with chairs and tables to seat up to 30 people. Suitable for Lunch, dinner or as an outdoor conference venue this activity provides a unique alternative to your conference or teambuild.

**Hello Hollywood:** Movie making epitomizes teamwork! Two options are available: film production or stage performance. A film production is made with two or three takes with the bloopers edited out and background music and voiceovers are edited in. A stage performance is well rehearsed and shot live, all bloopers are captured and kept, as the movies are not edited.

**Extreme make-over:** Is designed as a social responsibility one-day program, where a team relocates to the premises of a charity organization or school and in one day gives the premises a fresh look.
